

“We purchased an Agfa CR30x and a nova 6 generator from Celtic SMR in January 2010. The improvement in throughput, image quality has resulted in a huge growth in revenue from radiography alone which should pay for the investment before the end of the year.

The whole process has been a refreshing change - Celtic is a company which delivers on its promises with friendly, efficient and reliable staff! “

David W. Hunt B.V.M.&S. M.R.C.V.S.
